

NGA RANGATIRA

Children exploring and enjoying their new space.

Term two has been an exciting but productive term.

Science Fair

In term 2 we had a Nga Rangatira science fair. Many of the students brought in their projects. There were lot of amazing projects. There were some students that had cool projects that the teachers loved it and they probably haven't seen it before. Stelcious and Ethar came first place. Stelcious said that she felt really proud of herself and her group. MJ came second place. He said that the reason why he did this project was because one day he saw his little sister yawn and then he saw his mum yawn. He thought to him self "why is this happening?" so he did his research on contagious yawning. There are a lot of students that received award.

CONGRATULATIONS TO ALL THE STUDENTS THAT GOT AN AWARD. I HOPE THAT YOU ENJOYED THE SCIENCE FAIR. By Kalameli

Lego

Nga Rangatira was very fortunate this term to receive a whole lot of lego.

WHY DID WE GET THE LEGO?

Auckland city mission contacted our school to ask us if we wanted free lego and we said a very big and grateful yes.

WHAT HAVE THE STUDENTS BEEN DOING WITH THE LEGO?

The students of NR built the lego following the booklets and have displayed it in class. Students have also been able to make up models during our inside break times and as we are currently using them to create lego movie. By LJ

SOCCER

In term 2 Nga Rangatira sent 2 soccer teams to compete in the the Year 7&8 soccer tournament at flatbush. Both teams played an awesome game and the results came out pretty good. Nu was the girls soccer team captain and Jacky was the boys soccer team captain. Nu said it was challenging and fun, she also said it was hard work and everyone was pushed to their limits. Jacky said that there game was fun but frustrating at the same time because it did not go as planned. Derek who was the boys goalkeeper saved a lot of goals and enjoyed doing so. The girls came second and the boys participated well. By Jacky

STUDENT VOICE ON OUR DEVICES

How are devices been used by students?

- We handle them with respect and it is a privilege.
- To better our education experience and learn more from the world.
- We use then to create, find, explore, write.

Thoughts on Google Classroom.

- We can learn from our mistakes.
- We do not just do it at school we can do it at home too.
- We can complete our work in our spare time.
- We can work on a project together.

Voyagers

Nga Rangatira has been focusing on voyaging in our Inquiry unit for the second half of the term. Voyagers are people who travel using the stars to navigate the seas and land. In the morning you use the sun which rises in the east and sets in the west. At night we use the southern cross which points towards the south. Over the term 2 holidays all NR students have been assigned a homework project to complete focusing on voyaging. A homework letter has been sent out and will also be listed on our school website and google classrooms. Happy Voyaging! By Steward and PK

Learning Pits

This term we have been making learning pits. A learning pit allows students to explain how they feel whenever there is a task set in front of them. It helps you to get unstuck and to keep going no matter how hard it may be.

RUGBY

In term 2 the year 7 & 8 girls rugby team had a tournament at AO park. The captain of the team was NU Phan Xuan she said 'the games were fun and a bit challenging, the girls successful achieved and came first place'.

She felt proud of the girls coming first place and had heaps of confidence for her team. The team was very appreciative of their coach Oto. Nu's passion is rugby, and no one can stop her from playing what she loves. She says "anyone can play rugby no matter what form of shape you are".

Well done girls

Boys had an enjoyable day at rugby. They tried there best and enjoyed playing as a team. The boys came 4th which was the best result in a few years.

Well done boys for representing our school.
